

HDBox Smart Upgradation Manual

- **Kindly note that this manual is only for following series boxes:**

1. 0407001543xxxxxxx
2. 0407001619xxxxxxx
3. 0407001629xxxxxxx
4. 0407001649xxxxxxx
5. 0407001721xxxxxxx

1. Download 1.15 firmware using below mentioned link

["https://nayatel.com/wp-content/uploads/2019/06/1.15.rar"](https://nayatel.com/wp-content/uploads/2019/06/1.15.rar)

2. Unzip the file "1.15" into the root directory of formatted USB (FAT 32 or NTFS).
It should contain following two files

1. factory_update_param.aml (135 Bytes)
2. Pakistan_H1.0_S1.15.43R_SVN144011_20170907.2310 (272 MB)

3. Insert the USB in HDBox Smart and restart it

4. Keep pressing the back button from the remote as soon as you restart the HDBox until you see the following screen

5. When the up gradation is completed, HDBox Smart will reboot automatically
6. After reboot go to Settings → About. Software version should be 1.15R
7. Do not reboot or turn off HDBox Smart during up gradation.

Note: If box gets stuck during installation, re-try by changing the format of the USB.
